

## **OPTICAL TECHNICIAN – 1<sup>st</sup> or 2<sup>nd</sup> Shift**

We have immediate openings for Optical Technicians, both with entry-level and advanced skills in this career. These positions are available for both our day (Monday thru Friday, 7:30 a.m. til 4:00 p.m.) and afternoon (2:30 p.m til 11:00 p.m.) shifts.

Our technicians play a critical role by producing high-quality optical components that will be used in a variety of capacities throughout our customers' different industries world-wide.

The chosen candidates will be provided effective training and/or ongoing support, while:

- Accurately focusing on cylindrical optical elements
- Performing grinding and polishing to a high standard using conventional methods
- Independently programming and running a variety of machines, such as Opti-Pro, SatisLoh, and Schneider grinding, polishing, and centering machines
- Operating a core drill, band saw, and blanchards
- Effectively using high-tolerance measuring tools
- Performing cleaning and cosmetic inspection of finished optics according to customer requirements

### **Knowledge, Skills and Abilities:**

- Demonstrated hand/eye coordination along with manual dexterity
- Minimum basic math skills, along with ability to interpret drawings
- Experience and enjoyment learning and running different types of machinery
- Proven product inspection capability, particularly with fine detail
- Eager to multitask and grow in a proactive, team-oriented Optics career

JML Optical understands the importance of recruiting and maintaining the best talent.

Therefore, we offer an excellent benefits package, such as:

- Competitive pay for the marketplace
- Choice of Medical coverage plans, including a generous contribution to Health Savings Accounts
- 401(k) with Company Match
